Professional Summary

Passionate and detail-oriented **Software Engineer** with over 3 years of experience in designing and developing modern, responsive, and high-performance web applications. Skilled in React.js, Next.js, TypeScript, Tailwind CSS, and jQuery. Experienced in optimizing user experience, scalability, and maintainability for enterprise-level projects.

Technical Skills & Expertise

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass

Frameworks & Libraries: React.js, Next.js, jQuery, Tailwind CSS, Bootstrap, Redux Toolkit, Framer Motion, Axios

Tools & Platforms: Git, GitHub, Vercel, Netlify, Figma, Zeplin, Adobe XD, Postman

Experience

Software Engineer, The Indian Express — Noida, Uttar Pradesh

Nov 2022 – Present

- Built and maintained scalable web applications as part of in-house event and B2B platform teams.
- Enhanced site performance by 35% through code splitting, lazy loading, and optimized image handling.
- Delivered 100+ event websites, ensuring accessibility, SEO compliance, and responsiveness across devices.

Projects

Financial Express — Events Platform

JavaScript, jQuery, HTML, Bootstrap

Developed and maintained a robust event platform powering 100+ live event microsites for The Financial Express and The Indian Express. Focused on building responsive layouts, SEO-friendly pages, and dynamic modules for registration, schedules, and media galleries. Improved loading speed by optimizing DOM rendering and implementing efficient image handling.

FE B2B — Business Verticals

Next.js, TypeScript, Tailwind CSS

Architected and deployed a scalable B2B portal for multiple business verticals of The Indian Express. Designed modular and reusable components, integrated dynamic routing, and improved Lighthouse scores by 30%. Collaborated with backend teams to implement secure API integrations and enhance overall UI/UX consistency.

MoviesFlix

JavaScript, HTML, CSS

Built an interactive movie discovery web app leveraging The Movie Database (TMDB) API for real-time content. Implemented advanced search, genre filtering, and detailed popups using asynchronous API calls. Focused on delivering a clean, responsive interface with dynamic animations for an engaging user experience.

BMI Calculator

Next.js, TypeScript, Tailwind CSS

Developed a fully responsive and accessible BMI calculator app with instant computation and visual result categorization. Implemented modern UI practices using Tailwind utilities and Next.js components. Optimized client-side logic for better accuracy and smooth user interaction.

Education

Bachelor of Arts, Delhi University

Mar 2021 – Dec 2023

Achievements

- **Super Achiever — Employee of the Month** (Jan 2025), The Indian Express.
- **3rd Position — IEHACK 2023:** Built an internal quiz game for multiple departments.

Certifications

- Generative AI Mastermind — Outskill
- Introduction to Front-End Development — Simplilearn / SkillUp
