Professional Summary

Passionate and detail-oriented Software Engineer with over 3 years of experience in designing and developing modern, responsive, and high-performance web applications. Skilled in React.js, Next.js, JavaScript, TypeScript, Tailwind, and jQuery, with a proven ability to transform complex concepts into clean, intuitive, and user-focused interfaces. Known for blending technical precision with creative design thinking to deliver seamless, scalable, and visually engaging digital experiences. Continuously driven by curiosity and innovation, I excel at learning new technologies and implementing efficient front-end solutions that align with both user needs and business objectives.

Career Highlights

- Delivered 100+ responsive event microsites for Financial Express, ensuring consistency and scalability.
- Improved Core Web Vitals by 35% through optimization and code splitting.
- Developed Financial Express B2B portal with Next.js and TypeScript, enhancing API-driven workflows.
- Collaborated cross-functionally to translate Figma and Zeplin designs into accessible, SEO-optimized, and visually engaging production interfaces.

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass
Frameworks & Libraries: React.js, Next.js, jQuery, Tailwind CSS, Bootstrap, Redux Toolkit, Framer Motion, Axios
Tools & Platforms: Git, GitHub, Vercel, Netlify, Figma, Zeplin, Adobe XD, Postman
Development Practices: Responsive Web Design, RESTful API Integration, SEO Optimization, Cross-Browser Compatibility, Performance Optimization (Lazy Loading, Code Splitting), Accessibility (WCAG), Component-Based Architecture

Experience

Software Engineer
The Indian Express, Noida, Uttar Pradesh
Nov 2022 – Present (1 Year Internship + 2 Years Full-Time)

- Built and maintained scalable applications with React.js, Next.js, Redux Toolkit, and TypeScript.
- Enhanced performance by 35% through lazy loading, code splitting, and image optimization.

- Developed reusable UI components and integrated APIs, improving team efficiency by 25%.
- Managed 100+ event websites, ensuring accessibility and SEO compliance.
- Collaborated with cross-functional teams in Agile sprints and CI/CD workflows.

Projects

Financial Express – Events Platform (financialexpress.com/events)
Developed and maintained a large-scale, responsive event platform for Financial Express. Leveraged React.js, Next.js, TypeScript, and Tailwind CSS to create reusable UI components, optimize loading speed, and ensure pixel-perfect, SEO-friendly performance across multiple event microsites.

FE B2B – Business Verticals (financialexpressb2b.com)
Developed the Financial Express B2B portal using Next.js, TypeScript, and Tailwind CSS, focusing on modular design, dynamic routing, and efficient API integration. Enhanced user engagement through performance optimization and responsive UI tailored for business audiences.

MoviesFlix (aryanvaish-moviesflix.vercel.app)
Created an elegant movie discovery app using Core JavaScript, HTML, and CSS, allowing users to browse trending and top-rated movies and TV shows. Integrated third-party APIs to display detailed info, images, and trailers in a clean, responsive, and user-friendly interface.

BMI Calculator (aryanvaish-bmi-calculator.vercel.app)
Developed an interactive BMI Calculator using React.js and Tailwind CSS. Calculates BMI based on user input for height and weight, dynamically displays categorized outcomes, and features a clean, responsive UI optimized for all devices.

Education

Bachelor of Arts (BA)
Delhi University (School of Open Learning)
Mar 2021 – Dec 2023

Achievements

- Super Achiever – Employee of the Month (Jan 2025), The Indian Express.
- 3rd Position – IEHACK 2023: Built an internal quiz game for multiple departments.

Certifications

- Generative AI Mastermind – Outskill
- Introduction to Front-End Development – Simplilearn / SkillUp

Additional Information

Passionate about continuous learning and professional growth, with a strong interest in cloud computing, AI/ML, and full-stack development. Constantly exploring new frameworks, improving problem-solving abilities, and contributing to scalable, user-focused digital solutions.
